

Ongoing Assessment and Child Documentation of Preschool Children

Sally Reed Crawford

Indiana Department of Education Resource
Network (IRN)

Effective Evaluation Resource Center

Learning Objectives

1. Identify role of the preschool special education teacher
2. Clarify definitions of assessment, evidence, progress monitoring, and evaluation
3. Increase knowledge of accurate observations
4. Increase knowledge of effective documentation strategies
5. Increase knowledge of intentional lesson plan development
6. Increase knowledge of utilizing an **observation-documentation system** to use child data more effectively

The purpose of all early
childhood programs is to

Improve Child Outcomes

**Demonstrate
physical
independence
to take action
to meet
needs**

**Demonstrate
acquisition and
use of skills in
language, early
literacy, early
math**

**Demonstrate
Appropriate
Classroom
Behavior**

**Demonstrate
positive social-
emotional
skills**

**Goals
embedded into
intentional
lesson plan**

**Responsive
adults facilitate
child
engagement**

**Regular Child
progress
monitoring &
collaboration**

**New goals,
new
interventions**

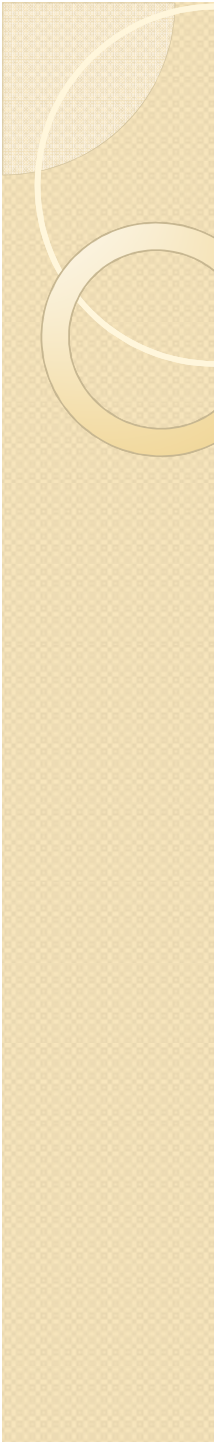

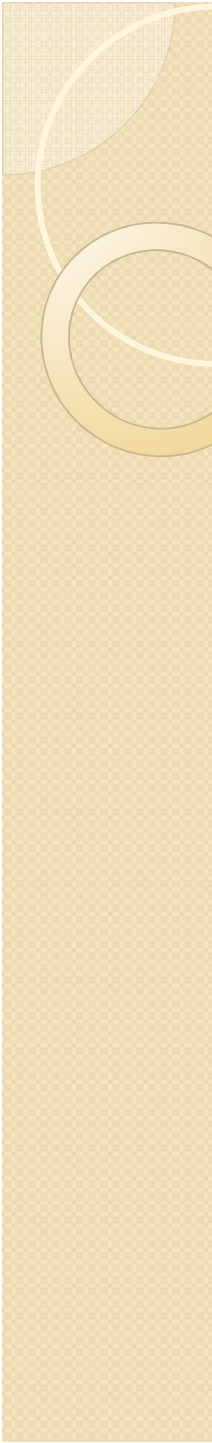

Assessment for Young Children Defined

- Assessment = Assessment is the process of gathering information about children from several forms of **evidence**, over time; then organizing and interpreting that information.
- Evidence = ***a sign or indication of proof of something***

NAEYC, 2004

- 
- **Authentic Assessment = the systematic recording of development over time of the naturally occurring and useful behaviors of young children during typical daily routines by familiar and knowledgeable caregivers.**

From Bagnato & Yeh Ho, 2006

- 
- Progress Monitoring = scientifically-based practice (**child documentation**) used to assess students performance and to evaluate the effectiveness of instruction **OVER TIME!**

➤ *Progress Monitoring is a way of helping a student learn and the teacher teach.*

K. Lane, "Student Progress Monitoring: What This Means for Your Child", National Center on Student Progress Monitoring; www.studentprogressmonitoring.org

Assessment vs. Evaluation

**Assessment =
Ongoing
process of
gathering
information**

**Evaluation =
Interpretation of
gathered
information**

Accurate Assessment of a young child = *Authentic Assessment*

Ongoing
Observation

Regular
Documentation

Team input

Criterion-
based tools
with
equitable
content

Accurate observations provides child data of

- Child developmental skills,
- Children's interests,
- How children use materials and use adults,
- What strategies children use to attain their goals,
- What skills children need to practice,
- Children's personalities and learning style.

Objective Observations are

Factual

LOOK

**Descriptions of
actions,
communication,
choices**

**Without
interpretation**

**What do
you want to
know?**

**How much
time do you
have to
observe?**

**How many
observations
are needed to
determine
child
mastery?**

Documentation 101

Child Observation

Reflection Experience I

1. What did you learn about the children you observed?
2. Using a scale between 0 - 3, with 3 being most objective, how would you rate yourself on objectivity?
3. If you rated yourself below a 3, give one improvement activity you would implement to improve your objectivity.

Child Observation

Reflection Experience 2

1. What was different this time you observed?
2. How did the focus of a specific developmental area change what you recorded?
3. Did the focus of a developmental area make recording your observations more efficient? Why? or Why not?
4. Was your observation objective or did you interpret what you observed?

When we focus our observations on particular skill groups, and use documentation tools aligned to the assessment, the accuracy of documentation can be enhanced.

Using child data improves decision-making to

- Complete an assessment instrument
- Determine effectiveness of intervention/instruction
- Collaborate meaningfully with family members and colleagues
- Develop new goals
- Develop intentional lesson plan to focus child observations
- Plan an engaging and stimulating learning environment

We observe to gather evidence, we document to remember accurately, then we evaluate data.

**Data Evaluation =
Think accurately
about a child and
plan more
effectively for
new learning**

Embedding and Observing Early Learning Standards in everyday classroom practices

1

The Early Learning Standard:

2 What is happening in your classroom where the standard might be addressed:

What behaviors and responses children might demonstrate to you:

3a

First Steps towards the standard:

Curriculum activities that can be implemented to support each child's progress level:

3b

Making Progress:

3c

Met the standard:

(adapted from Gronlund, Making Early Learning Standards Come Alive: Connecting Your Practice and Curriculum to State Guidelines, 2006)

What do the steps of progress look like?

Social: Interpersonal Skills - Interacts with others

3a

**First Steps
toward
standard**

**Parallel play, attends to
group activities**

3b

**Making
Progress**

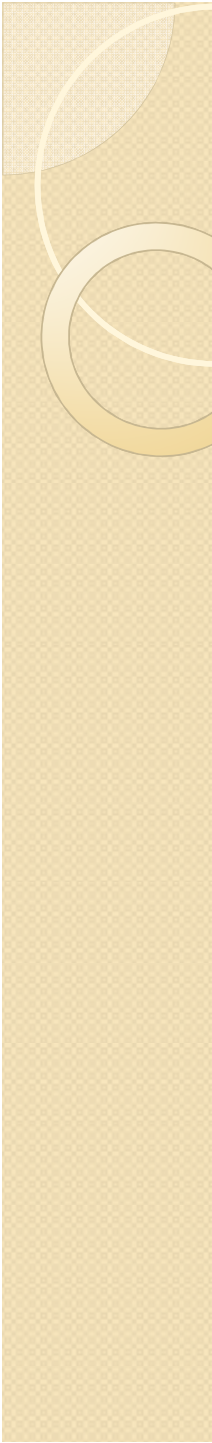

**Participates in group
activities, shares when
prompted, simple pretend
play with peers**

3c

**Met the
standard**

**Begins conversations,
greet others, initiates
interactions**

Adapted from Make Early Learning Standards Come Alive: Connecting Practice and Curriculum to State Guidelines by Gaye Gronlund, 2006

***Think and Plan* with early learning standards/performance indicators in mind**

“In order to meet the skill/standard of ____, we [do/provide/encourage] **this [activity]” ____.**

Example:

To meet the standard of **measurement**...we *provide roads, ramps, balls, cars, marbles in the Block Center.*

Adapted from *Make Early Learning Standards Come Alive: Connecting Practice and Curriculum to State Guidelines* by Gaye Gronlund, 2006

To meet the math skill of measurement, we provide roads, ramps, balls, cars, marbles in the Block Center.

Intentionality

Directs adults to implement activity

Focused child observations

Early Childhood Classroom Weekly Lesson Plan (Include Early Learning Standards per Activity)		
Date _____ Teacher _____		
Child-Directed Activity Exploration		
<u>Blocks</u>	<u>Art</u>	<u>Sensory Table</u>
<u>Dramatic Play</u>		<u>Library</u>
<u>Manipulatives</u>	<u>Ongoing Projects</u>	<u>Writing Center</u>
<u>Reading and Writing</u>	<u>Math Experiences</u>	<u>Scientific Investigations</u>
<u>Strategies to Relationship Building</u>	<u>Individual Student Activity Adjustments</u>	

ECE Weekly Classroom Plan January, 2010

Adapted from *Early Learning Standards and Staff Development* by Gaye Gronlund and Marilyn James, 2008

Reflection

“In order to meet the skill/standard of
_____,
we *[do/provide/encourage]* **this** *[activity]*”
_____.

[RT2012: New Streamlined Guidance on Submitting Preschool & Pre-K Special Ed Children for IEP Access](#)

posted on Tuesday, September 06, 2011 at 10:46 AM by [Sally Reed-Crawford](#)

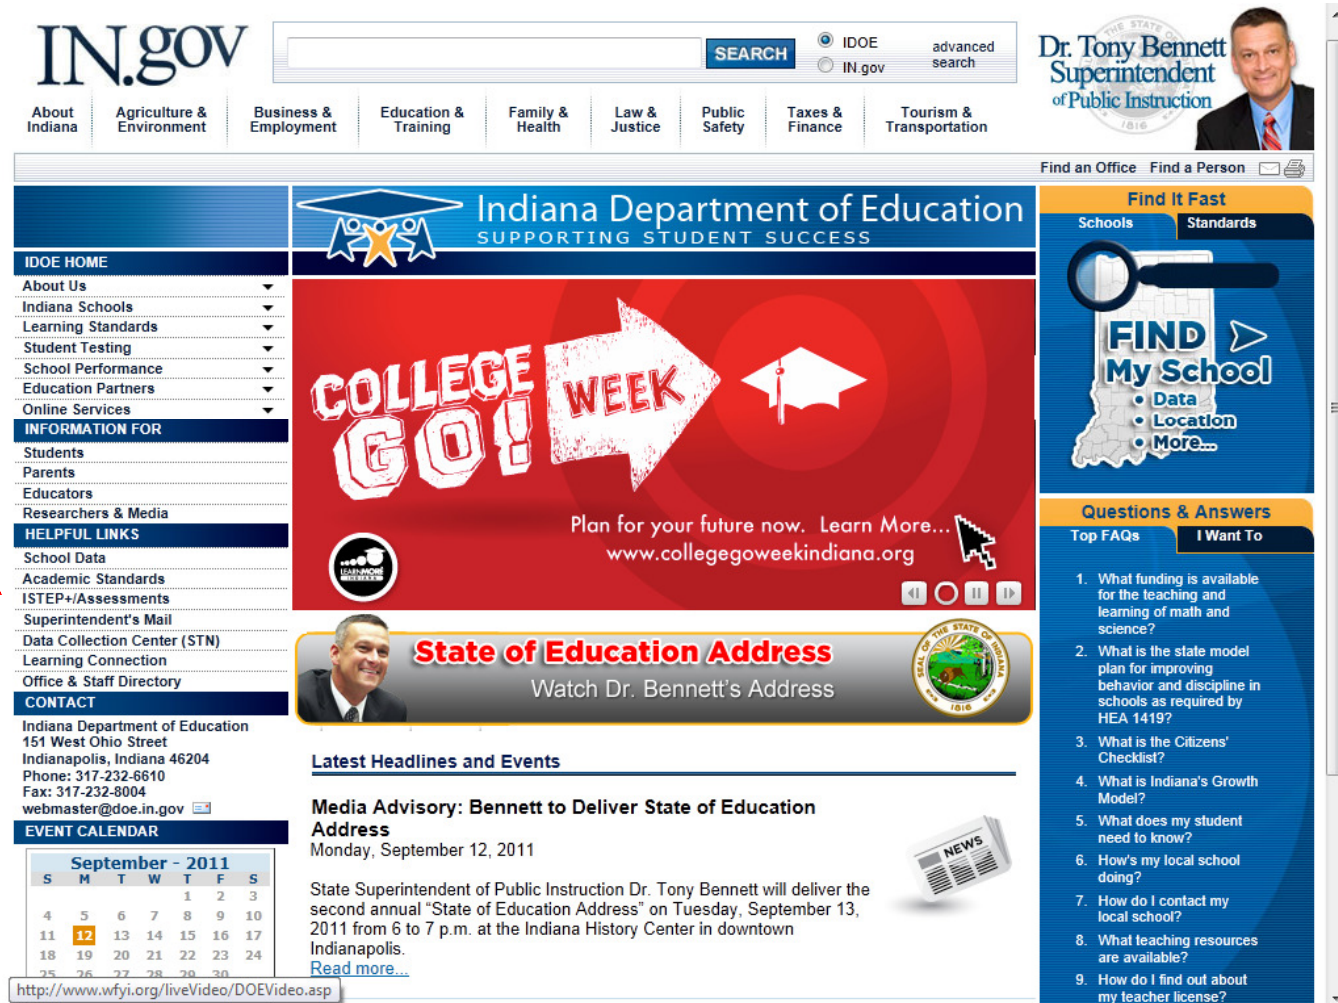

STN Support has posted a new announcement for the community IDOE - Data Collection and Reporting. [View and Respond Online](#)

RT2012: New Streamlined Guidance on Submitting Preschool & Pre-K Special Ed Children for IEP Access

The document linked below combines much of the guidance previously posted for submitting Special Education children in Preschool (Grade Code PS) and Prekindergarten (Grade Code PK) solely for the purpose of accessing the child's IEP.
